Meat product produced	120-124
Meat Product Sold	125-130
Egg and wool produced and sold	131-136

## Foreword

The Livestock Statistics for the year 2007 is the second publication of the Department of Livestock. The publication provides comprehensive data on livestock population and Production.

The Publication is presented in two sections:

1. Section I: contains Livestock population and production data at Dzongkhag level. The data for the Central Farms are included under respective Dzongkhags.
2. Section II: contains Livestock population and production data at Geog Level. The data for the Central Farms are included under respective Geogs.

We hope that the Data will be useful, not only for the Livestock planners and researchers but also for the Policy makers, who are involved in the development of the RNR sector.

I would like to extend my appreciation to all my colleagues in the Department and the Dzongkhag livestock sector, and in particular to the IMS of the department for their invaluable efforts in bringing out this useful and informative publication.

**Tenzin Dhendup**  
**Director General**

## Livestock Population Summary 2007

Dzongkhag	Area (skm)	No. of Geogs	Cattle	Buffaloes	Yak	Horses	Mules	Donkey	Sheep	Goats	Pigs	Poultry	Dog	Cats
